

My testimony, September 2022

By Simba Xin

Hello, my name is Simba, and I am 13 years old and going to 8th grade. Today I will talk about my relationship with Jesus Christ. My life before knowing Christ is kind of not that great. I wasn't a good kid to my family and never really helped my family to do anything. I also wasn't a good brother to my little brother because I always argued with him and had fights over small things.

So how I saw a need for Christ and received Him? I need Christ because he loves me and died for my sins. Christ doesn't have to die for me, but because of his love for me he is willing to die for my sins. I also need Christ because he loves me so much that he would give his life to me to clean off my sins. One last reason I need Christ is that I want to be kind/friendly just like him and help the people who need my help. I am willing to come to church and worship him and help out the church if I can. So I think I really need Christ.

So how is Christ changing and influencing my life? After I came to church and knew Christ, I became a nicer kid than before. I started helping my parents with the dishes, cleaning the floor, and more. After knowing Christ, I became a great brother. I started caring for my little brother a lot more and learned how to cook so that I could take care of my little brother at home when my both parents were out working. After knowing Christ, I even got a better grade and loved to study before a test, and my grade rose by a lot this year.
